

Course Report **Trinity Travel Nikonov Group Dec 2010**

Upon arrival at our school the students completed a written and oral assessment exam. The results were very good and on the basis of this the students were placed at an Upper-Intermediate level.

The classes consisted of 3 hours of English lessons per day for two weeks. All lessons were taught entirely through English. Subjects covered in class included

- Upper-Intermediate grammar, a complete revision of the tense system in English,
- Reading comprehension including extracts from newspapers and literature.
- Listening comprehension (including music and dialogues)
- Written compositions
- Speaking practice including role-play exercises, interviews and surveys.

The course teachers reported that the students were a pleasure to teach. They were all polite, friendly and eager to learn. They worked well as a group and always cooperated. All the students had excellent spoken English and during the course they gained more confidence in expressing themselves through English.

Furthermore the attendance and punctuality of the students was perfect throughout the course.
